

A perspective on the discussion on inclusive + equitable development.
 PROFESSOR LENA GLIPPERT

"safe operating space"

consider future generations

gender imbalance

power imbalance must be considered

distribution of benefits + harm on environment

ECOLOGICAL CONNECTIVITY BETWEEN AREAS BEYOND NATIONAL JURISDICTION

what are impacts of global policy + legislation?

integrated approach

what are impacts of small daily local practices / changes?

there are currently implementation gaps between policy & action

BLUE JUSTICE

What role do smaller entities play?

academics + researchers
 NGOs
 individual units
 social movements

Sustainable use of ocean

impacted by climate change and ocean-grabbing

under pressure according to FAO, IPPC, etc.

Requires change in use of ocean + distribution of resources

Potential for drawing on tradition knowledge esp. in global South

must address a complex network of rules + norms that currently operate

must consider cumulative impacts of existing & new uses

E E L G R A S S
